## FRIENDLY VISITING

The Home & Community Support Services Grey-Bruce Friendly Visiting program matches volunteers with an isolated senior or an adult living with disabilities.

Clients of the friendly visiting program provide information about their interests and background in order to match the client and volunteer interests for a successful visiting relationship.

The visits will generally be in the client's home but the volunteer can also schedule social phone calls.

The purpose of this program is to provide socialization and opportunities to interact with others.

There is no fee for this service. This program is made possible by our dedicated team of volunteers.
